Conjugating irregular Italian verbs in the future tense

Even with irregular verbs the future tense in Italian is easy to learn. The only difference is that irregular verbs have an irregular stem to which you directly apply the future ending.

Here are some verbs that are irregular in the future tense

English	Italian	Irregular Stem
to go	andare	andr
to have	avere	avr
to drink	bere	berr
to fall	cadere	cadr
to give	dare	dar
to be	essere	sar
to make	fare	far
to put	porre	porr
to know	sapere	sapr
to hold	tenere	terr
to see	vedere	vedr
to come	venire	verr

This makes our typical formula even simpler. To conjugate an irregular verb in the future tense = irregular stem + conjugated ending = conjugated verb. Example;

Andr (From To Go) + emo (ending for we) = Andremo (We will go)
